Dear John and Aaron:

"Have you ever thought of putting EL on a vest?"

That was all it took. In no time at all you presented our commercial vehicle inspectors with a working prototype. Today, all of the enforcement personnel in the Minnesota State Patrol Commercial Vehicle Section are protected by the Safe Lites *Always Be Seen* safety vest.

Feedback from field personnel is very positive. Not only do we have a safety vest that meets OSHA and ANSI requirements, but officer safety is greatly enhanced through the use of the integrated electroluminescent lighting system built into the vest. Other enforcement personnel and motorists have commented they could see the *Always Be Seen* vest long before they could discern any other people or objects at crash scenes or other night time details.

The *Always Be Seen* vest wears like similar non-lighted vests. Its light weight and adjustment system make it comfortable and unobtrusive and the compact rechargeable power supply is virtually unnoticeable to the wearer.

We are thankful for the opportunity to assist in development of the product and congratulate you on a job well done. We are confident the *Always Be Seen* vest will be a lifesaver many times over in the years to come.

Sincerely,

Captain Ken Urquhart
Commander
Minnesota State Patrol
Commercial Vehicle Section
